

ABIGIYA GETACHEW

FULL-STACK ENGINEER

PROFILE

Experienced Full-Stack Engineer with a strong foundation in React.js and Next.js, complemented by a background in UI/UX design. Developed over three customer-facing web app features that enhanced navigation and user experience while implementing accessibility best practices. Focused on delivering seamless and responsive web applications that prioritize user-centered design and functionality. Known for collaborative problem-solving and attention to detail in fast-paced development environments.

WORK EXPERIENCE

- UI/UX Design Intern** Aug 2026 – Present
Women Techmakers · Remote
- Intern** Feb 2025 – Sep 2025
SciTech Valley · Lebu, Addis Ababa

PROJECTS

Digital Reporting Platform — Final Year Capstone Oct 2025 – May 2026

React · Nest.js · PostgreSQL
Anonymous reporting platform for trauma, bullying, and violence. Built a full-stack system using React, Nest.js, and PostgreSQL for real-time report submission and dashboard visualization.

Pizza Ordering & Inventory Management Platform Aug 2026

React · Node.js · MongoDB
Full-stack pizza ordering and inventory management platform with separate Admin and User roles. Built separate Admin and User role flows covering ordering, inventory, and order management. Implemented real-time order tracking and automated low-stock notifications.

FidelLinks — Front-End & UI/UX Aug 2025

Converted Figma designs into a responsive React UI. Focused on user onboarding flow and content structure.

EDUCATION

Bachelor of Science, Software Engineering
Wolkite University
Jun 2026
